

Industrial

EK and C Series

- API Basco and Young Interchanges
- Compact Size and Low Cost
- Heat Removal up to 400 HP
- Oil Flow to 80 GPM
- 500 PSI Capacity for Shell Side
- High Efficiency Finned Bundle Design

OCA Series

- Young Radiator - OCS Model Interchange
- American Industrial - AOCS Interchange
- Machine Tool Cooling
- Gear and Lube Cooling
- Marine Transmission
- Torque Converters

AOC Series

- Industrial Duty
- 3/4" Tubes
- Oil Flows to 150 GPM
- SAE Connections
- Single or 3 Phase 60/50 Hz Motors

AO Series

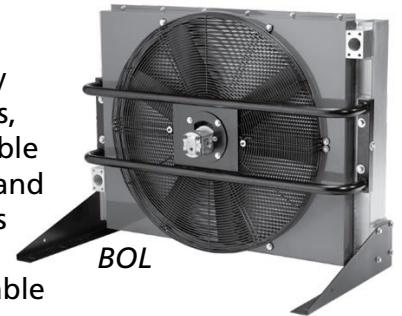

- Young Interchange OCH
- Adjustable Louvers
- 1 or 2 pass Models for Machine Tools, Torque Converters, Hydraulic Presses

Mobile

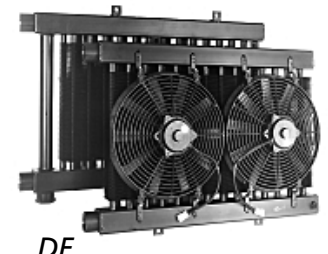

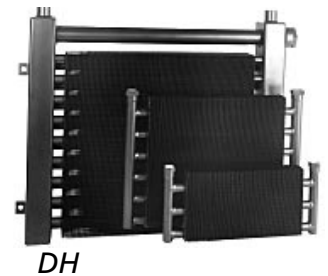

MA Series and BOL Series

- Bar & Plate Brazed Aluminum Core Design
- Customized Units are Available to Meet your Requirements
- Additional Capabilities for Rad/ CAC/ etc.
- Welded Fittings and Ports Ensure Structural Integrity
- Standard SAE Ports, NPT & BSPP Available
- Many Direct AKG and Olaer Interchanges Available
- MA Series is Available in 12v or 24v; 30 or 60 PSI Bypass
- BOL Series is Available with Hydraulic Motor or in Single and 3 Phase

DH Series and DF Series

- Hayden Interchange
- Excellent for Radiator Face Mount Cooling
- Very Low Cost Oil Cooler
- Oil Flows to 150 GPM
- Can be Used as Oil, Transmission or Fuel Cooler
