If necessary, a complete rebuild of a unit can be completed in our shop. This hydraulic grapple had all cylinders, swivel and hydraulic motor repaired, as well as, all new pins made and all of the pin eyes were welded and machined to size.

Designing and manufacturing new cylinders for any application is no problem. This compactor cylinder was designed and manufactured by HSI.

Hydraulic cylinders with large piston nuts pose no problem for removal as well as replacement to proper torque, for our hydraulically powered torque wrench.
